Description :

Burner Tube (Product Code: SLE/B/24) is a 1 metre length of gas tubing used to carry fuel gas from the laboratory gas tap to a Bunsen burner in school, college and institute labs. Both endsare reinforced so they push onto the burner inlet and the tap nozzle and stay firmly in place. It is supplied by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, Ambala, as one of the everyday accessories among its school chemistry lab equipment in India.

Key Details

Parameter	Detail
Type	Gas supply tube for laboratory burners
Length	1 metre
Ends	Reinforced, for fitting to a Bunsen burner and a gas tap
Purpose	Connecting a bench burner to the laboratory gas supply
Product code	SLE/B/24
Supplied by	Jain Scientific Equipments Pvt Ltd (ScienceLab), Ambala, India

What Is the Burner Tube Used For?

Every gas burner on a practical bench needs a sound connection to its tap, and this tube provides it. The 1 metre length lets students place the Bunsen burner comfortably away from the tap and from their books, while the reinforced ends resist the splitting and stretching that happen when softer tubing is pushed on and pulled off nozzles day after day.

For a safe school lab setup, push each end fully onto its nozzle, route the tube so that it does not lie across a tripod, hot plate or flame, and turn the tap off at the bench, not just at the burner, when work ends. Check the tube for cracks, hardening or loose ends at the start of each term, and brush soapy water over the joints if you suspect a leak: bubbles show where the gas is escaping.

Supplier

Jain Scientific Equipments Private Limited, known to customers by its trading name ScienceLab, supplies the Burner Tube from Ambala, Haryana, India. Laboratories can order the tubing together with burners, lighters and other bench accessories in a single enquiry, for delivery to institutions and distributors in India and international markets. Details about the company are on our company profile.

Related Burners

Burners that this tube connects to, and an alternative tubing option:

- Bunsen Burners — general-purpose burners for the student bench
- Bunsen Burner with Stopcock — adds gas control at the burner itself
