Description :

Magnetic Ten Frame Answer Boards (Product Code: SLE/MG/20) are double-sided, wipe-clean answer boards with foam magnetic counters, used to build early number skills in pre-primary and primary maths lessons. Each set has four boards measuring 18 cm × 16 cm, with a ten frame on one side and a double-ten frame on the reverse, plus 100 counters, making it a practical addition to mathematics lab kits in India. They are made by **Jain Scientific Equipments Pvt Ltd (ScienceLab)**, an OEM manufacturer, at its own factory in Ambala, India.

Specifications

Parameter	Detail
Set contents	4 wipe-clean answer boards and 100 foam magnetic counters
Board size	18 cm (L) × 16 cm (H)
Board layout	Double-sided: ten frame on one side, double-ten frame on the reverse
Surface	Wipe clean
Skills supported	Counting, one-to-one correspondence, number patterns, addition, subtraction and multiplication
Product code	SLE/MG/20
Manufacturer	Jain Scientific Equipments Pvt Ltd (ScienceLab) — OEM
Country of origin	India (made in Ambala, Haryana)

What Are Ten Frame Answer Boards Used For?

A ten frame is a simple grid of two rows of five boxes, and it helps young learners see numbers as quantities they can picture. The teacher asks a question — show seven, show two more than five, show how many make ten — and each child or pair places the foam counters on the board, then holds it up. Every answer is visible at a glance, so the teacher can spot who needs help without waiting for written work, and quieter learners take part as fully as confident ones.

The ten-frame side builds counting, one-to-one correspondence and number bonds within ten. Turn the board over to the double-ten frame for adding and subtracting across ten and for numbers up to twenty. Rows of counters can also show equal groups for early multiplication and repeating number patterns. After the lesson, wipe the boards clean and count the counters back into their container.

OEM Manufacturer

Jain Scientific Equipments Private Limited, trading as ScienceLab, is the OEM manufacturer of the Magnetic Ten Frame Answer Boards, which are made at the company's own licensed factory at Saha, Ambala, Haryana, India. Pre-schools, primary schools, education departments, dealers and importers can order them factory-direct.
